Until May 1st, receive $50 off of the registration for a team of four golfers with the code "TEAM50" when registering on the website, found here. This annual event, held in Fargo and Moorhead, raises funds for The ALS Association's mission, including out participation and support at all different levels, from sponsors to golfers and donations to our auction. Preparations for the Larry Sing Memorial ALS Golf Classic are underway for the 27th year! We are seeking 612-455-7238 or ryan@alsmn.org.

In a study funded in part by The ALS Association's TREAT ALS program, researchers from Northwestern compound in mice and in laboratory neurons and is in the very early stages. upper motor neurons, a key contributor to ALS. While this news is exciting, this study has only tested the Tregs, the faster the progression of ALS. In this article, Dr. Kuldip Dave, vice president of research at The ALS Association, discusses the implications of the study.

There have been studies that have shown that in people living with ALS, Tregs are reduced and the lower the Tregs, the faster the progression of ALS. In this article, Dr. Kuldip Dave, vice president of research at The ALS Association, discusses the implications of the study.

Making the conscious choice to be prepared can make all the difference. Issues—people with ALS can still get sick or possibly hurt themselves in ways unrelated to the disease. Preventing deformity, working muscles, as well as providing splinting recommendations for joint stability to increase a joint function or controls, conserve energy, call for help, and prevent falls. Page 18 of our ALS Navigation Tool will provide you with helpful self-care tips on page 17 of our ALS Navigation Tool.

1. Activities of Daily Living (ADL's)—your occupation therapist will recommend DME/Adaptive Equipment to increase safety/independence with daily activities, as well as train you how to use these items. There are also some community in the safest way possible, while continuing to fight for a world without ALS. Your generosity also contributes to research efforts designed to develop the next treatment, and ultimately, a cure for the families affected by ALS each year through the distribution of medical equipment, respite care from needed equipment and services to people with ALS in our service area.

If you are interested in making a pledge, please follow the link to our pledge form. If you have any questions or would like to make a one-time donation to the program, please contact Rachael Pishtek at 612-227-6181 or email volunteer@alsmn.org. We couldn’t do it without you.

We'd like to thank all our volunteers for being a part of our team. Thank you for your service to those that give back to our communities. Thank you for your service to your caregivers in a variety of ways. Please check out more information on our appropriations (budget) asks:

- Mary Anne Radmacher

Few of our corporate partners have as long a relationship with our Chapter as Reliable Medical, checking out their website: https://www.reliamed.com/mn-als-walk in Rochester, St. Cloud, and the Twin Cities. To date, Reliable's Walk Teams have raised $22,000 and the largest DME loan, with over 900 pieces on-site at any given time.

We hope you find our website informative and easy to navigate. For more information on our programs and how they can support you, contact us at 612-455-7238 or ryan@alsmn.org.

April is National Occupational Therapy Month! Occupational therapists (OT's) are an important part of your care team and can be seen at your ALS clinic, the day. This includes anything that “occupies” your day, such as dressing, eating, bathing, etc. The goal of...
