ADVANCING OUR MISSION

NEIL THAKUR, Ph.D.

Chief Mission Officer

**By 2030 ALS will be
a livable disease.**

A rapid and fundamental
transformation in the ALS
experience, until we find cure.

What Livable Means

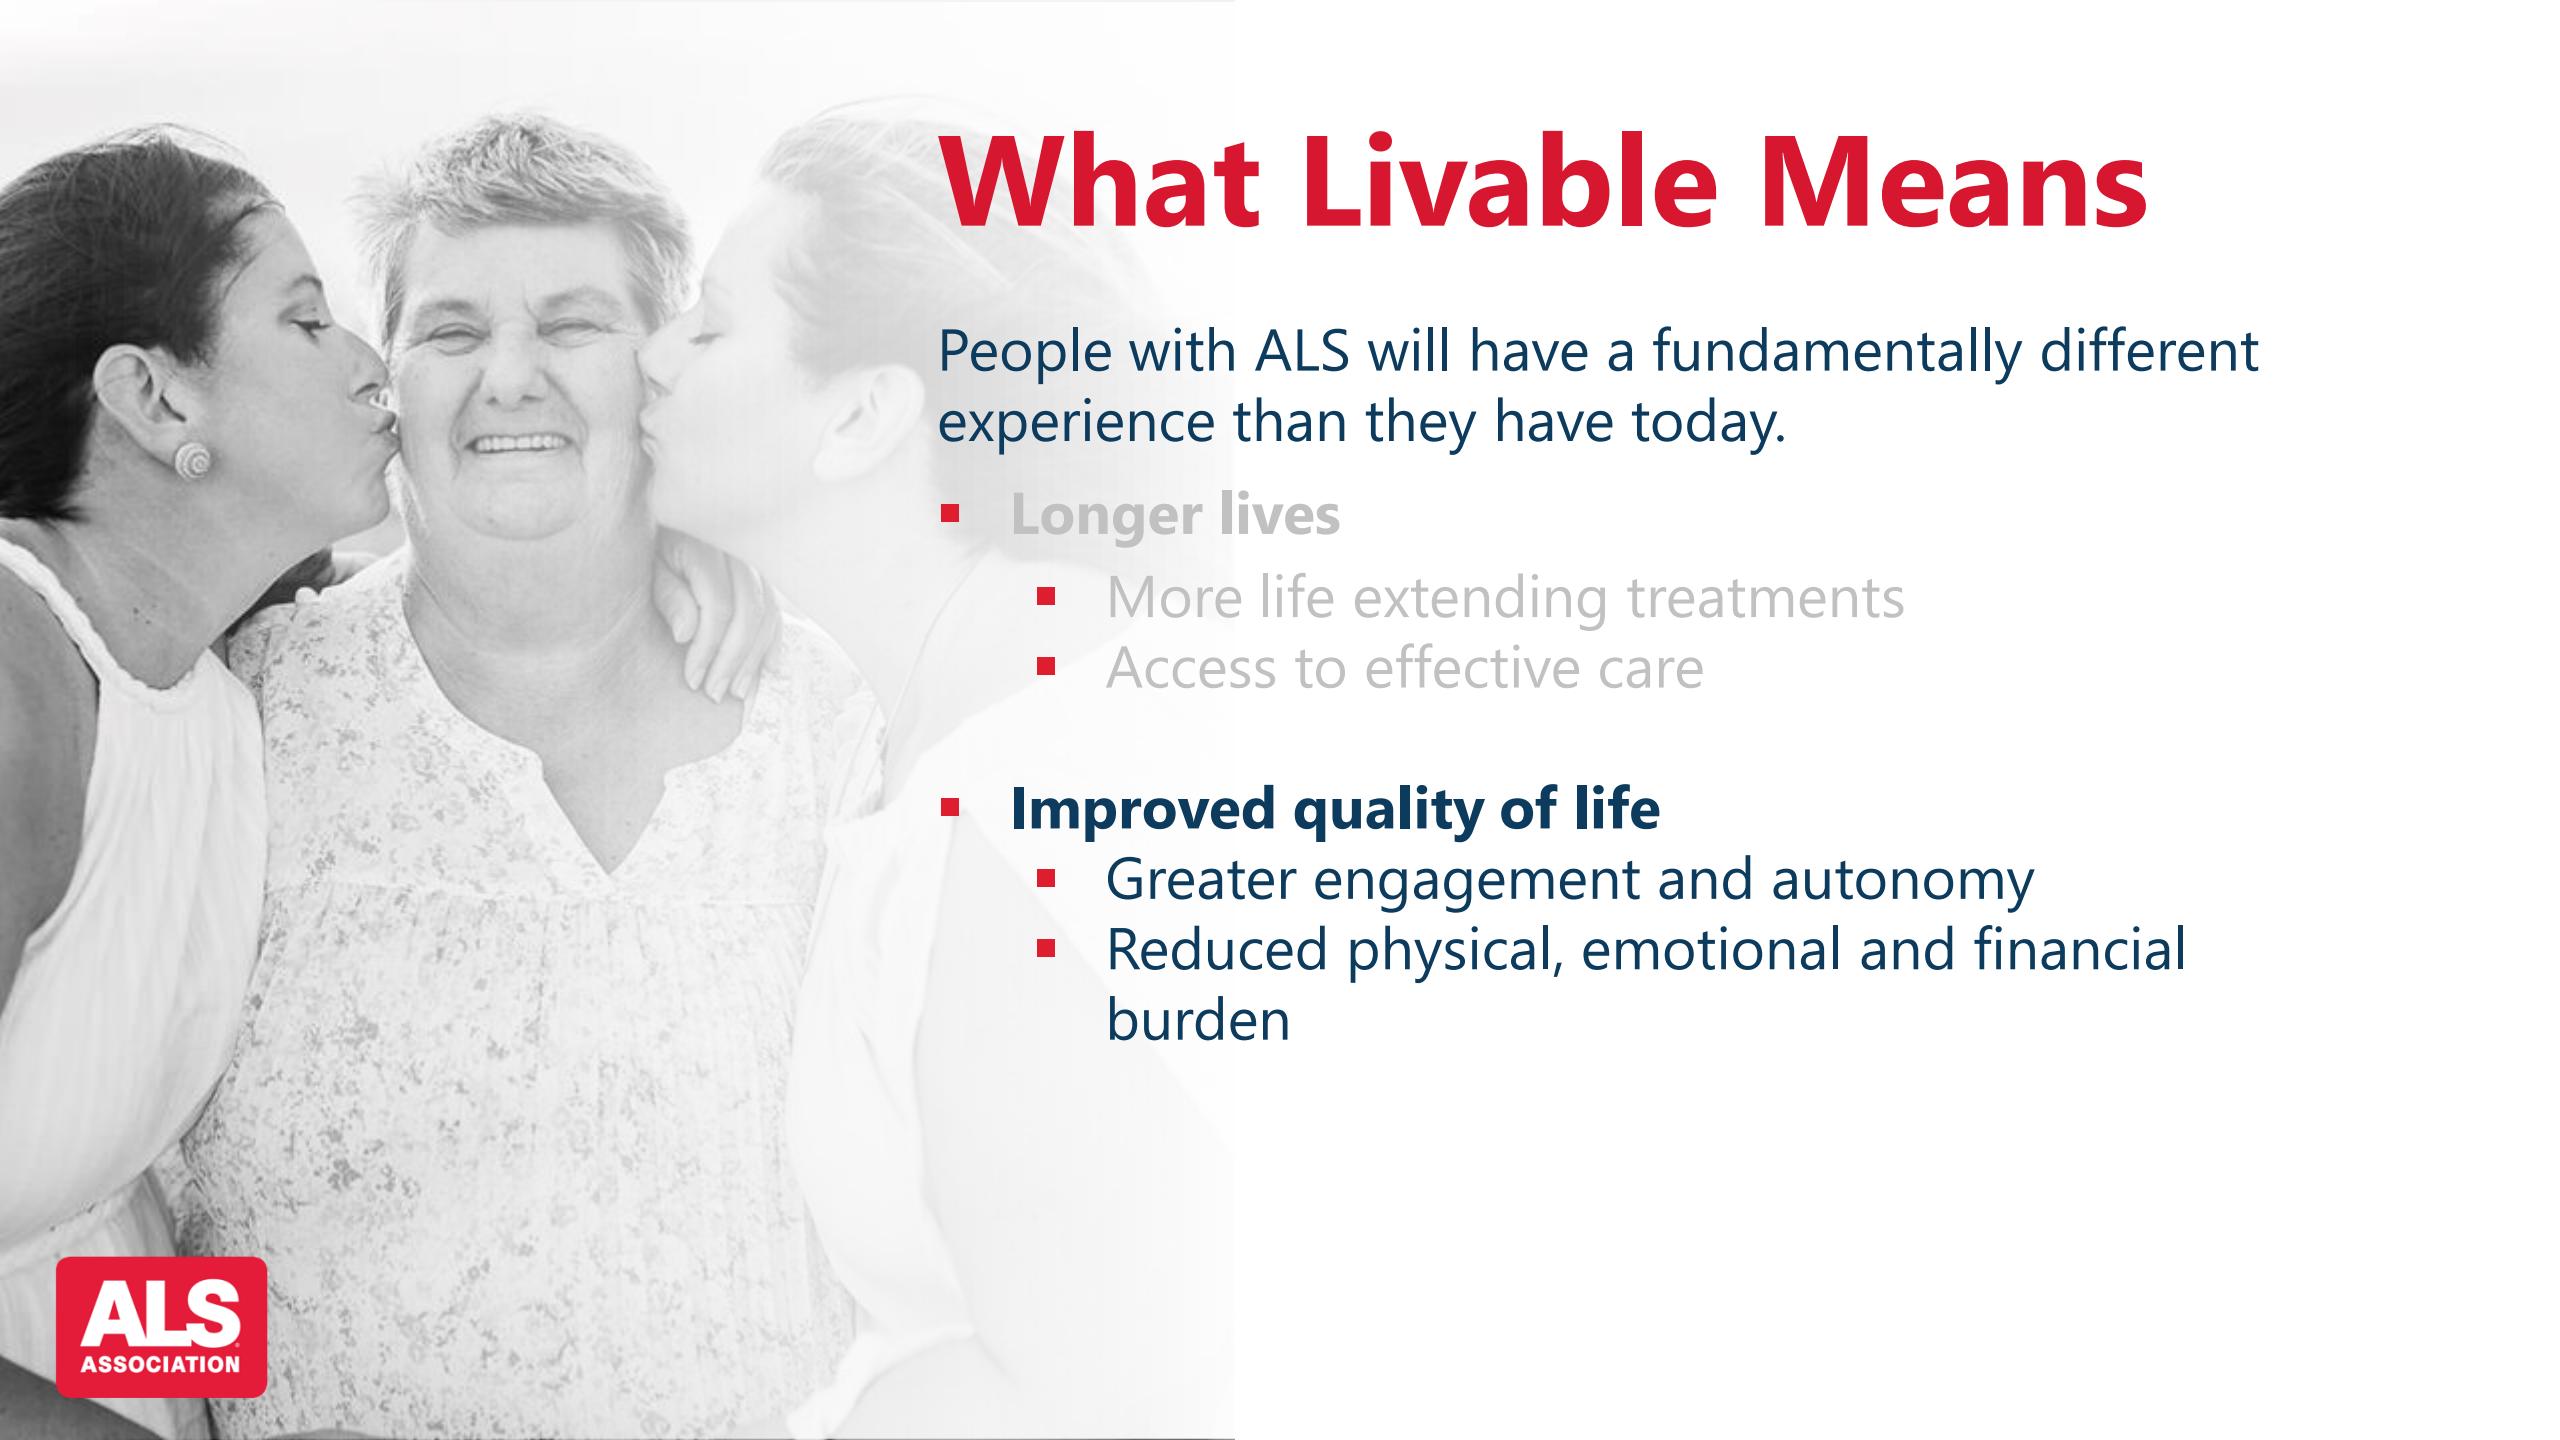

People with ALS will have a fundamentally different experience than they have today.

What Livable Means

People with ALS will have a fundamentally different experience than they have today.

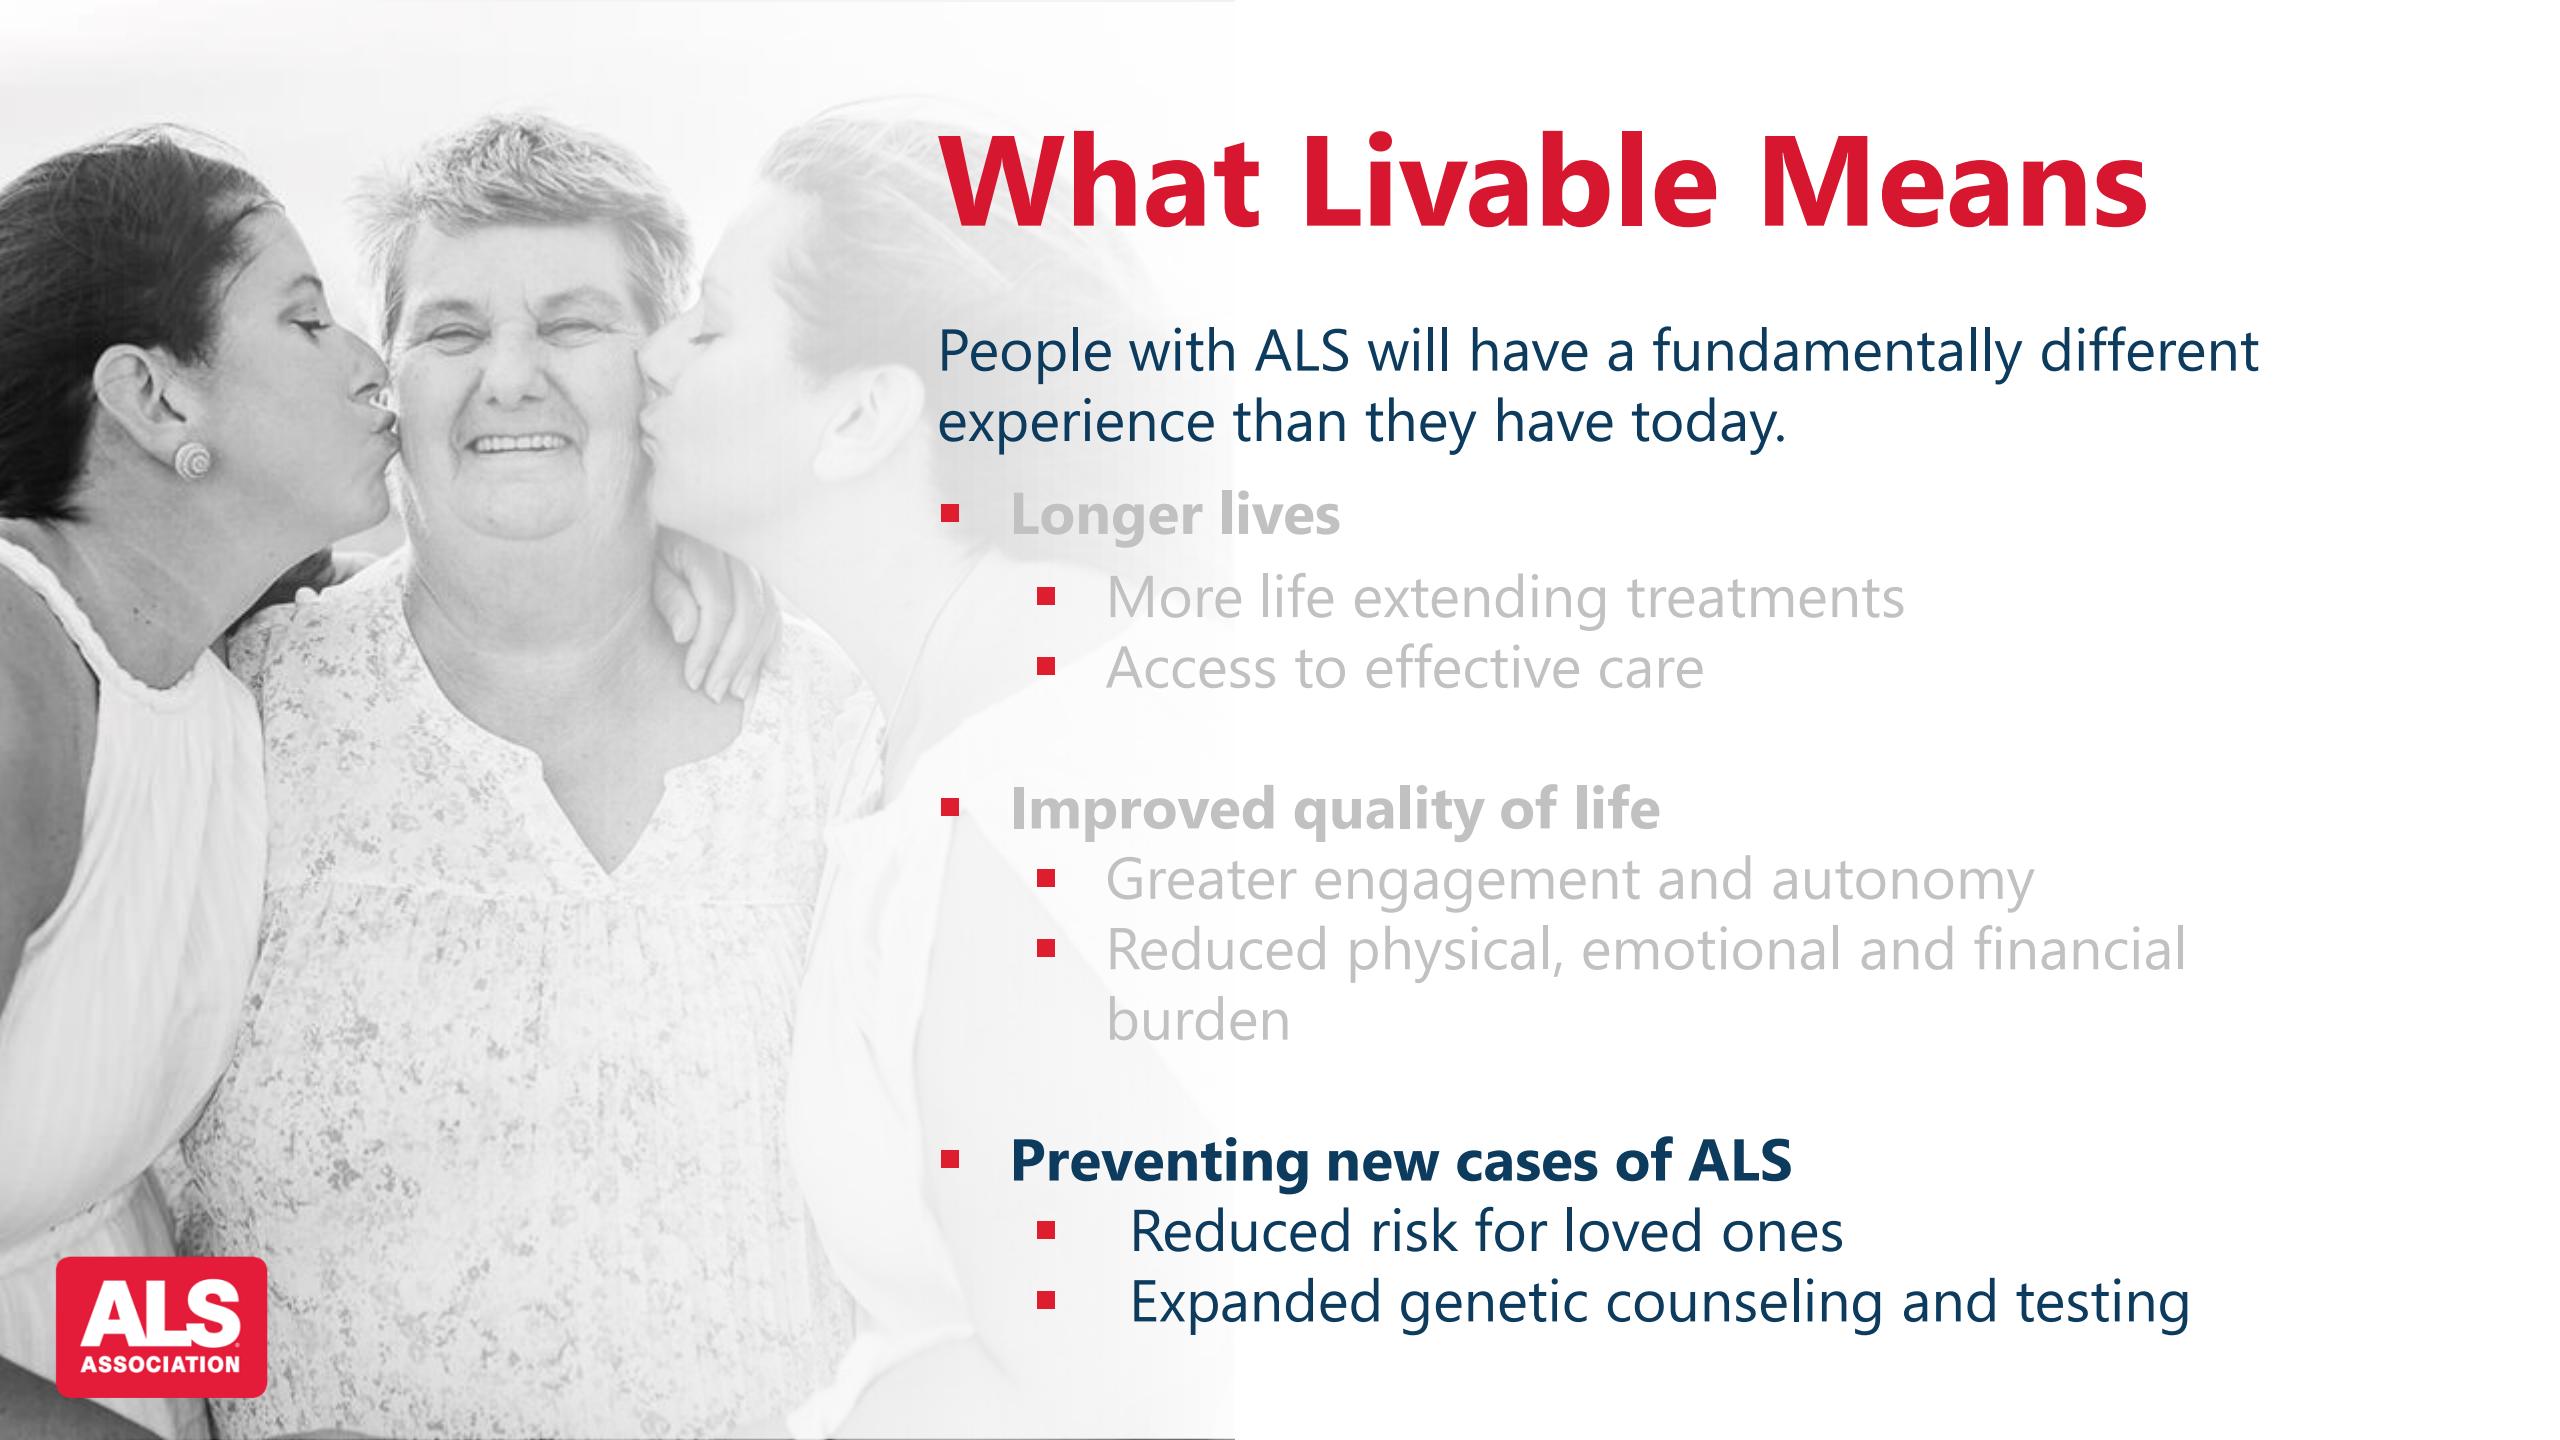

- **Longer lives**
 - More life extending treatments
 - Access to effective care

What Livable Means

People with ALS will have a fundamentally different experience than they have today.

- **Longer lives**
 - More life extending treatments
 - Access to effective care
- **Improved quality of life**
 - Greater engagement and autonomy
 - Reduced physical, emotional and financial burden

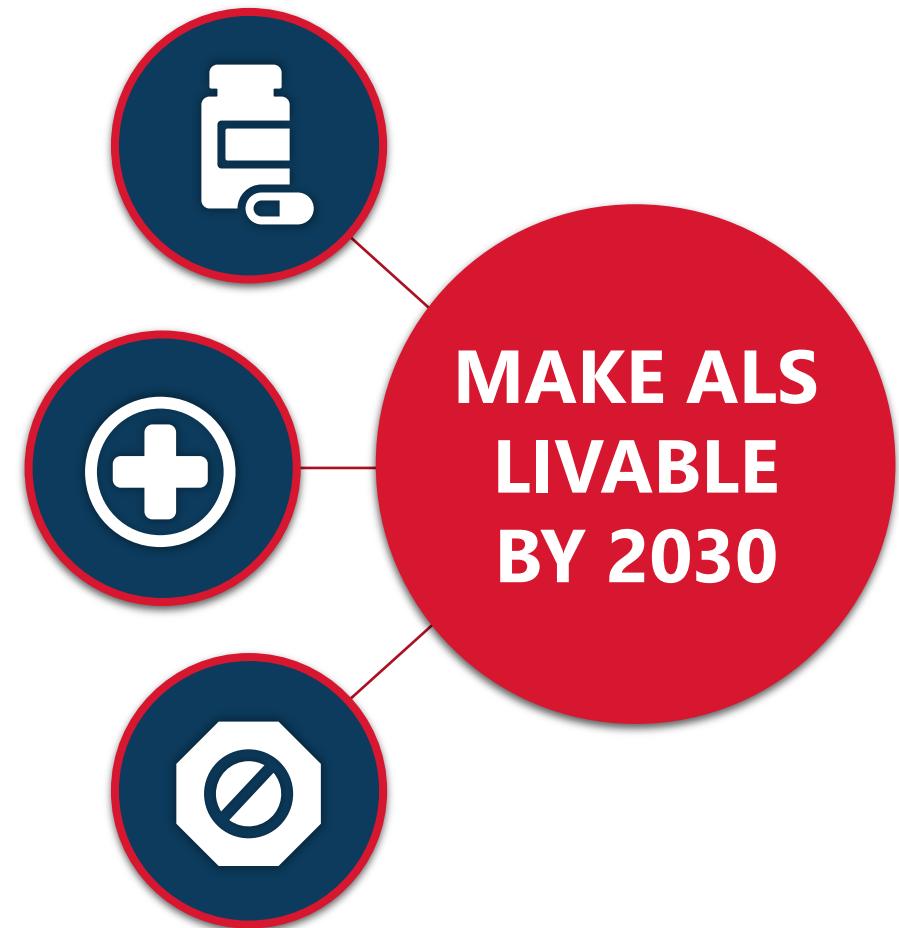

What Livable Means

People with ALS will have a fundamentally different experience than they have today.

- **Longer lives**
 - More life extending treatments
 - Access to effective care
- **Improved quality of life**
 - Greater engagement and autonomy
 - Reduced physical, emotional and financial burden
- **Preventing new cases of ALS**
 - Reduced risk for loved ones
 - Expanded genetic counseling and testing

How We Get There

- Find New Treatments & Cures
- Optimize Current Treatments & Care
- Prevent or Delay the Harms Associated with ALS

OUR TOOLS

- **Research:** Generate new knowledge to treat and end ALS
- **Care Services:** Access effective treatment, services and support
- **Advocacy:** Engage the government in research, care services, treatment and support

Advocacy can help transform the experience of ALS for everyone here today, and eventually end it.

WE NEED TO WORK TOGETHER

ALS ADVOCACY LANDSCAPE

MELANIE LENDNAL

Senior Vice President, Public Policy & Advocacy

MAKING ALS LIVABLE WHILE WE WORK TO CURE IT

FIND NEW TREATMENTS & CURES

\$150M for ALS Research at the National Institutes of Health

\$25M for the Rare Neurodegenerative Disease Grant Program at FDA and \$75M For Expanded Access Programs

\$80M for the ALS Research Program at Department of Defense

OPTIMIZE CURRENT TREATMENTS & CARE

\$150M for ALS Research at the National Institutes of Health

Faster Access to promising drugs, treatments, and therapies

Ensure health insurance coverage of all drugs, treatments, and therapies

Affordable access to drugs

Telehealth Accessibility

Promote and pass the ALS Better Care Act

PREVENT OR DELAY HARMS OF ALS

\$150M for ALS Research at the National Institutes of Health

\$15M for the ALS Registry and Biorepository at CDC

Prevent health insurance practices that increase cost of care

Prevent health insurance practices that delay proper treatment

Ensure persons w/ ALS can travel

Provide support to caregivers

Ensure Medicare patients can access affordable Medicare Supplemental Coverage

Insurance coverage for genetic testing

Protections against insurance discrimination

CONGRESSIONAL FUNDING IN THE ALS RESEARCH ECOSYSTEM

PAUL LARKIN, Ph.D.

Director, Research

THE ALS ASSOCIATION IS THE LARGEST PHILANTHROPIC FUNDER OF ALS RESEARCH

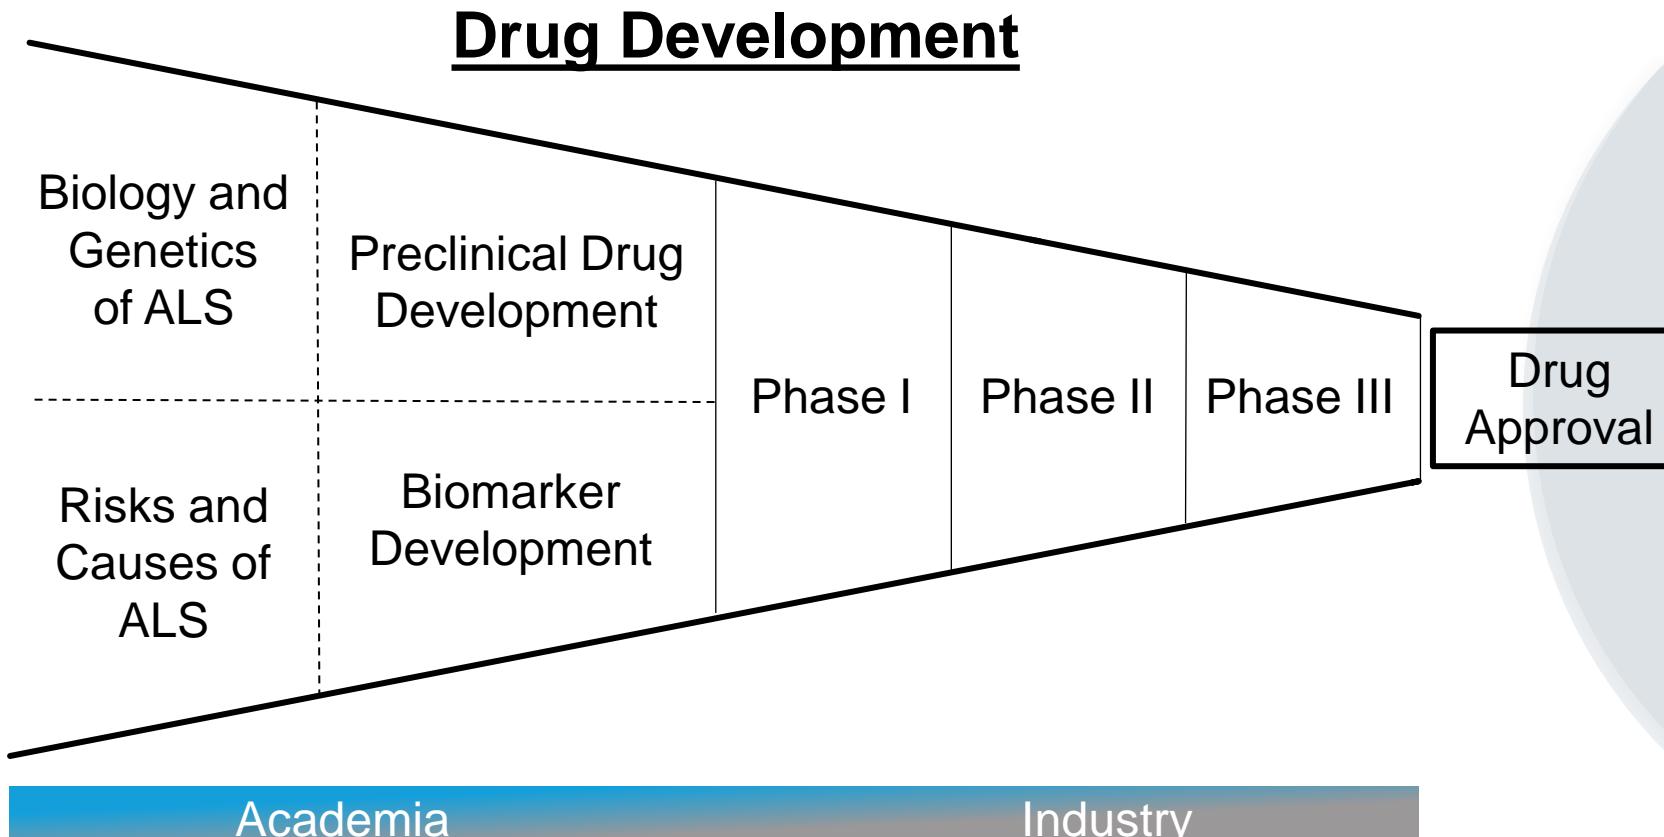

THE FUNDING PROCESS

- **Identify areas of need**
 - Work with our community to identify gaps and opportunities
- **Request and review applications**
 - Targeted requests for applications
 - Rigorous review process
- **Fund the best projects**
 - Around the world
 - In academic, industry, government or non-profit labs

OUR 2022 RESEARCH FUNDING

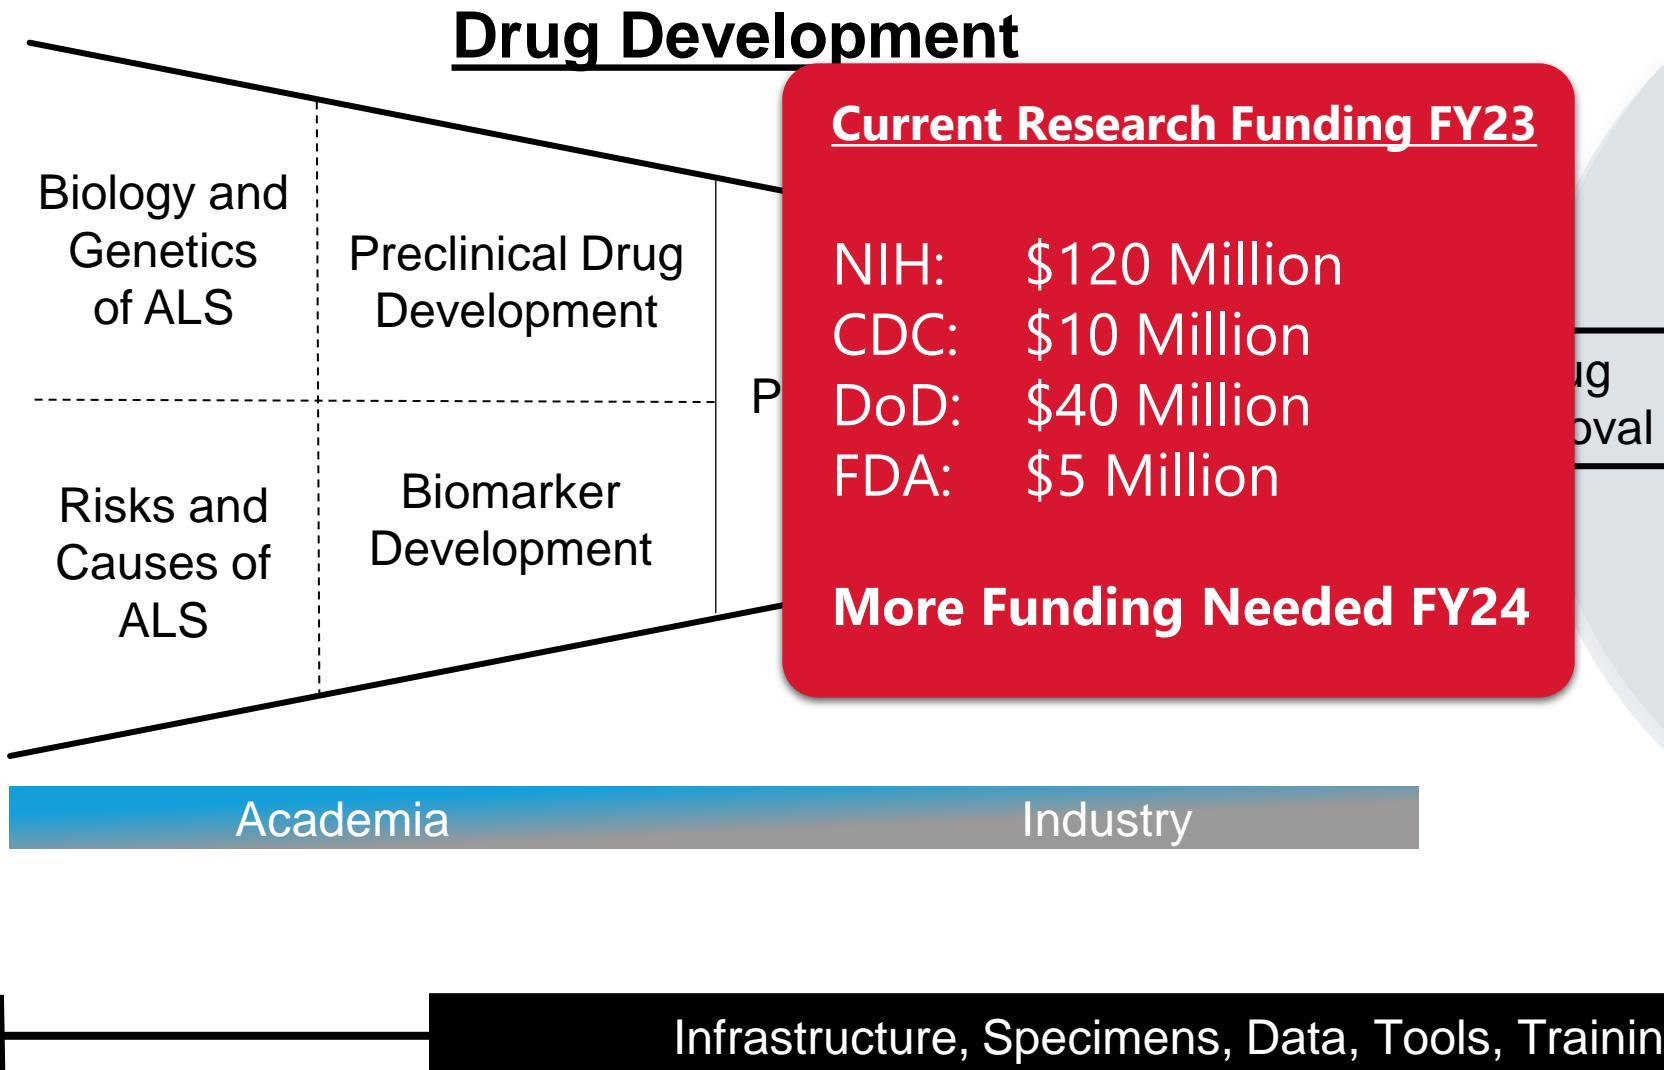

- **Issued 7 Requests for Applications**
 - Variety of topics from infrastructure to drug development to prevention
- **Reviewed 245 applications**
 - From 18 countries, 29 states, Washington DC and Puerto Rico
- **Committed \$15 million to fund 59 new projects**
 - Projects span the entire ALS research ecosystem

ALS RESEARCH ECOSYSTEM

Infrastructure, Specimens, Data, Tools, Training

QUESTIONS & ANSWERS

ADVOCATING FOR ALS RESEARCH

WINNING APPROPRIATIONS SUPPORT

DENISE BAILIN

Director, Congressional Affairs

State of Play: Funding for ALS Research

- **Congress debating funding for government**
 - Requesting input from constituents
- **President released budget for government**
 - Congress has final say
- **We must tell Congress to increase ALS research funding**

State of Play: Dear Colleague Letter

- **What is a Dear Colleague Letter?**
 - “Congressional Petition”
- **ALS Research Dear Colleague Letter**
 - House letter – launched
 - Senate letter – launching soon

Impact Of ALS Research Dear Colleague Letter

- Increased funding for ALS research in our Dear Colleague Letter
- Members of Congress only sign on if they hear from constituents
- **More signatures = increased support for ALS funding**

ALS Research At The Department Of Defense

- **Current Funding: \$40 million**
- Only federal funding specifically for ALS research
- Research bridges ideas to preclinical innovation
- More clinical trials

MILITARY VETERANS ARE
2X
AS LIKELY TO DEVELOP ALS

CURRENT FUNDING
CAN ONLY GRANT
25%
APPLICATIONS

OUR ASK

\$80 million for the Department of Defense ALS Research Program (ALSRP)

ALS Research at NIH

- **Current Funding: \$120 million**

NIH is the **largest public funder** of ALS research

Research and development of new treatments and cures

Optimize current treatments and care

Prevent or delay harms associated with ALS

OUR ASK

Provide **\$150 million for research at the National Institutes of Health**

ALS Registry and Biorepository at CDC

- **Current Funding: \$10 million**

Funds research
on causes, risks,
and prevention

Collects data
and bio-samples
for researchers

Connects
patients
to trials

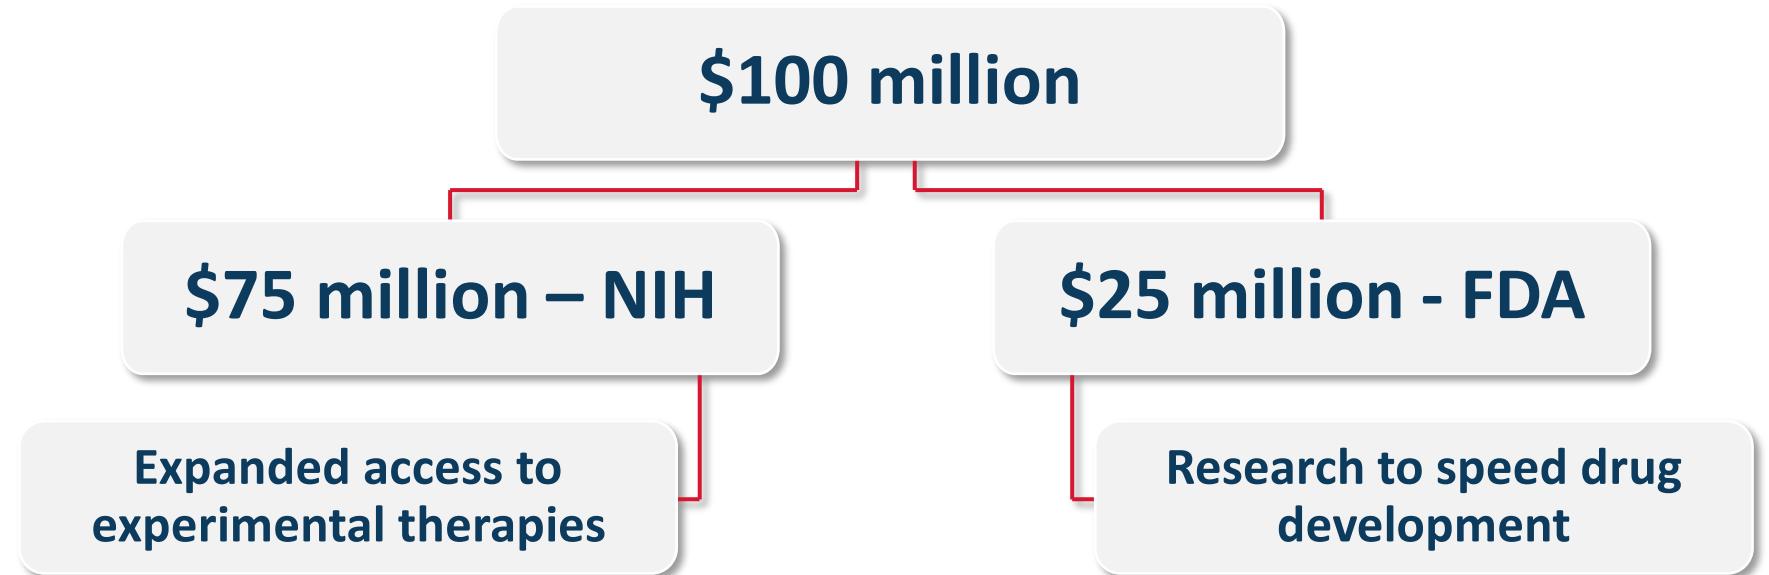

Measures
incidence and
prevalence

OUR ASK

- **\$15 million for the National ALS Registry and Biorepository**
- **An initiative to prevent ALS for veterans and active-duty soldiers**

ACT for ALS Act

- **Current Funding: \$80 million**

OUR ASK

Provide full funding for the ACT for ALS Act - \$100 million

Ask Congress: Sign the FY2024 ALS Research Appropriations Dear Colleague Letter

Congress makes critical decisions about the future of ALS research through the annual appropriations process. Our top advocacy priority each year aims to increase federal funding to support research and the search for treatments and cures for ALS. Federal funding for ALS research and programs at the National Institutes of Health (NIH), the Food and Drug Administration (FDA), the DOD ALS Research Program and the CDC National ALS Registry must be increased exponentially to provide new treatment options to cure and prevent ALS.

ALS champions Representatives Mike Gallagher (R-WI), Jason Crow (D-CO), Brian Fitzpatrick (R-PA), and Joe Courtney (D-CT) released the letter with the goal of enlisting their colleagues in our fight.

Join our campaign today by urging your member of Congress to add their name to the FY2024 ALS Appropriations Dear Colleague letter.

US Representative Don Beyer

Subject

Please Sign the FY2024 ALS Appropriations Dear Colleague Letter

Message

Dear Representative Beyer:

As your constituent and someone who is personally impacted by ALS, I am asking you to join the fight to end ALS by signing on to the fiscal year 2024 ALS Appropriations Dear Colleague letter.

With your support, we can drastically accelerate the fight against ALS.

This letter requests new and increased investments in ALS research, specifically:

1. Fully fund the ACT for ALS Act at \$100 million including:

600 million in funding for FDA's Rare Neurodegenerative Disease Grant Program

Sincerely,

Dustin Perchal

1300 Wilson Blvd, Arlington, VA 22209, USA
